

REACH Directive Compliance Statement

January 2023

In Accordance to Regulation No. 1907/2006 concerning the Registration, Evaluation, Authorization & Restriction of Chemicals (REACH), Invertex Drives Ltd and our Suppliers have a duty to communicate the presence of Substances with Very High Concern (SVHC). As a company we are committed to relaying this information to our customers.

ECHA/NR/23/02 has added nine chemicals to the Candidate List because of their hazardous properties new for January 2023.

Based on the guidance provided to us by our suppliers and to the best of our knowledge, we can confirm that Invertex products do not contain any substances that appear on the candidate list for REACH. The pre-registration or registration of any substances lies with our up-stream suppliers and we have implemented procedures to ensure that they also comply with current legislation (and any future versions) and that we receive confirmation of this.

As part of our due diligence, our suppliers have provided us with signed statements confirming that all products supplied to us contain NONE of the products specified in the reach SVHC list. However, we will continue to monitor this situation for future changes or amendments to the regulations or candidate list; And most importantly keep our customers updated and aware that Invertex continues to comply with these regulations.

A handwritten signature in blue ink, appearing to read 'Mike Dean'.
