

# WEEE Directive Statement

## 2024/V.2

## Electrical and Electronic Equipment End-of-Life (EOL)

Invertex Drives Ltd recognises its responsibility according to the WEEE-Directive 2012/19/EU, and the Waste Electrical and Electronic Equipment Regulations 2013 (as amended). Invertex Drives Ltd embraces the opportunity to help protect and preserve the environment by providing a safe means to dispose of Electrical equipment waste.

All Invertex Drives Product carry the WEEE Directive Symbol.

This symbol indicates that the product should not be disposed of in general household waste.

It's important to be able to recycle as much as we can to save natural resources and preserve the environment as much as we can.

Invertex Drives Ltd has created an End-of-Life Recycling Program that offers customers a free of charge service within the UK to return drives that have reached their End of Life back to Invertex Drives Ltd for recycling and disposal of any hazardous substances.

Please contact your local Invertex Drives Sales Partner for further assistance.
